Experience

Doer

Oct 2023 - present

Front end developer

- Collaborate in an Agile team to deliver high-quality code aligned with project goals and timelines.
- Use TypeScript, React.js, and Next.js to build and enhance website components for improved performance and usability.
- **Develop responsive**, visually appealing designs with Tailwind CSS, focusing on UI/UX best practices.

Imedi L

Sep 2023 - Feb 2024

Front end Developer Intern

- Developed and maintained responsive user interfaces using React and JavaScript, enhancing website functionality and user experience.
- Utilized **Redux for state management** across components, optimizing application performance and data flow.
- Designed and styled components with SCSS and Bootstrap, ensuring responsive, visually appealing, and consistent design across devices.
- Collaborated closely with cross-functional teams using **Agile methodologies** to align on project goals, deliverables, and timelines.

Education

Ivane Javakhishvili Tbilisi State University Tbilisi

Sep 2019

Bachelor of Computer science

Faculty of Exact and Natural Sciences

- Learned C++ fundamentals, including memory management, pointers, and references, along with C++ OOP, which is helping me a lot to learn new languages.
- Gained knowledge in Algorithms and Data Structures.
- Successfully completed courses in Calculus, Discrete Mathematics, Linear Algebra, and other computer science-related subjects.
